

MEMORANDUM

DATE	June 27, 2012
TO	Board Members, Veterinary Medical Board
FROM	Shela Barker, Staff Counsel
SUBJECT	<i>Options for Uniform Standards related to substance abusing licensees</i>

Attached you will find proposed “options” for three different possibilities of incorporating the Uniform Standards into regulation. These are not your only options for undertaking this task, but are three that have been suggested at various points during the past to the different health care boards. You may want to use one of these methods or you may wish to craft your own method and your own language.

Each of the presented options has its own benefits and risks and all will be discussed at the Board meeting.
