Introduction

The Veterinary Medical Board (Board) developed the Disciplinary Guidelines outlined in this manual for its Executive Officer, staff, legal counsel, administrative law judges, and other persons involved in the Board’s enforcement process to be used for the purpose of creating judgment orders in formal disciplinary actions. These guidelines are published in regulations for the public and the profession so that the processes used by the Board to impose discipline are readily available and transparent.

The Board recognizes that each case is unique and that mitigating or aggravating circumstances in a particular case may necessitate variations. Therefore, the Board has developed minimum and maximum penalties to assist in determining the appropriate level of discipline. If an administrative law judge finds that a violation occurred but assesses less than the minimum penalty for that violation, the Board requests that the administrative law judge fully explain the reasons and the circumstances for the deviation. In addition, probationary conditions are divided into two categories, 1) standard terms and conditions that are used for all cases, and 2) optional terms and conditions that are used for specific violations and circumstances unique to a specific case.

The Board grants licenses to veterinarians, grants registrations to veterinary premises and veterinary technicians, and issues veterinary assistant controlled substance permits. If there is action taken against both the individual licensee and the premises registration, then the disciplinary order should reflect actions against each. However, in some cases, minimum standard violations are so severe that it is necessary to take immediate action and suspend the license of a facility. In these instances, the veterinary license and the premises registration may be disciplined separately, and the disciplinary order should reflect the separate action.

Because of the severity of cases resulting in actions taken by the Office of the Attorney General, the Board has established that the minimum penalty shall always include revocation or suspension with the revocation or suspension stayed and terms and conditions of probation imposed. The threat of the revocation or suspension being reinstated helps to ensure compliance with the probationary terms and conditions. The Board recommends that for alcohol or drug abuse related violations, the minimum term of probation should be five years, and in addition, the mandatory terms and conditions listed specifically for this type of case shall be imposed.

A respondent may be represented by private counsel during enforcement proceedings, up to entry of a final disciplinary order. Following entry of the final order, including, but not limited to, while the respondent is on probation, the respondent may receive the assistance of private counsel, but the respondent shall communicate directly with Board staff. Written communications from the Board will only be sent to the respondent.

Minimum penalties may be considered if there is evidence of an attempt(s) at self-initiated rehabilitation. Evidence of self-initiated rehabilitation includes, but is not limited to, pro bono services to nonprofit organizations or public agencies that improve the care and treatment of animals or improve generally society’s interactions with animals. Self-initiated rehabilitation measures also include, but are not limited to, specific training in areas of weakness, full restitution to persons harmed by the licensee or registrant, completion of treatment or other conditions of probation ordered by the court, or compliance with all laws since the date of the occurrence of the crime.

## Section 4883(g); 4836.2(c)(2), (3); 4837(c) (continued)

Maximum penalties should be considered if acts or omissions caused or threatened harm to an animal or a client or if there are prior violations of the same type of offense.

Minimum penalties may be considered if acts or omissions did not cause harm to an animal, there are no prior violations of the same type of offense, and there is evidence of self-initiated rehabilitation.

When considering minimum penalties, the terms of probation should include a requirement that the licensee submit the appropriate medical reports (including psychological treatment and therapy), submit to random drug testing, submit to a limitation of practice, or practice under the supervision of a California licensed veterinarian as applicable on the facts of the case, and submit quarterly reports to the Board (in writing or in person as the Board directs). The Board requires a minimum of five-years’ probation for any violation related to alcohol or drug abuse.

Business and Professions Code section 4836.2(d) prohibits issuance of a VACSP to any applicant with a state or federal felony controlled substance conviction.
